Board Certified General Surgeon

### POSTOP INSTRUCTIONS FOR REMOVAL OF SKIN LESION

1. Keep your bandage clean and dry for 24 hours.
2. After 24 hours, it may be removed.
3. If you have white Steri-Strips over your surgical area, do NOT remove them.
4. You may get them wet after 24 hours, but pat them dry after washing.
5. Incisions without Steri-Strips should have a thin application of antibiotic ointment applied three (3) times daily until next office appt.
6. Call the office the day of your surgery to make an appointment for a one or two-week check-up.
7. You may take Tylenol as directed, if you have discomfort.
8. If you have any questions, please call (216) 561-0312
